The EW1217 4-port USB charger, charges up to 4 devices at the same time! Thanks to the smart charging system the power capacity is divided over the occupied USB ports. The EW1217 is equipped with a quick charge function. With this function one of the connected devices will charge more rapidly. This even works when multiple tablets or smartphones are connected.

Charge up to 4 tablets simultaneously. Or 4 smartphones. Even charge 2 tablets and 2 smartphones. Every combination you can think of is possible! Charge besides your tablet and smartphone also your GPS, photo camera, MP3 player and Bluetooth headset.
